

Luis Antonio Cárdenas Montejano

Colima, Colima
(312) 943-9692
luisdgtic@gmail.com

Professional Summary

Software Engineer with experience in developing web and desktop applications. Currently working as a Full Stack Developer at ICSIC, contributing to internal systems using ASP.NET MVC, Clean Architecture, Git, and GitLab. Skilled in building applications with WPF and SQL Server following the MVVM pattern, as well as working on projects with Blazor and Syncfusion. Focused on solving real-world problems, learning new technologies, and delivering innovative solutions with tangible impact.

Professional Experience

April 2025 - Present

ICSIC, Colima – Software Developer

- **Pre-registration & Ecological Tax System:** Designed and deployed a public-facing platform managing complex fiscal business rules and high-concurrency data persistence.
- **Institutional Correspondence System:** Implemented comprehensive Role-Based Access Control (RBAC), dynamic operational modules, and secure document upload/management pipelines.
- **Technical Stack & Architecture:** Engineered modular systems using *Clean Architecture* and Dependency Injection with ASP.NET MVC 5, .NET Framework 4.8, SQL Server, and MySQL.
- **Advanced Frontend:** Heavily utilized JavaScript (ES6+), jQuery, and the Fetch API for async backend communication, JSON payload processing, and dynamic UI rendering.
- **Version Control & DevOps:** Managed code repositories, branching strategies, and deployments through Git and GitLab.

July 2024 - April 2025

Freelance, Colima – Full Stack Developer

- Built a responsive website using **Blazor**, **HTML**, **CSS**, **JavaScript**, and **Syncfusion**.
- Created a desktop application with **WPF**, integrating **Syncfusion** and **DevExpress**, following **MVVM** best practices.
- Gathered client requirements through interviews and managed the end-to-end development process.

January 2024 - June 2024

IPECOL, Colima – Software Developer

- Developed an institutional management system using **WPF**, **DevExpress**, and **SQL Server** under the **MVVM** pattern.
- Designed user interfaces for handling and visualizing large volumes of data.
- Collaborated with multidisciplinary teams to ensure high-quality deliverables on schedule.

Education

Facultad de Telemática – Universidad de Colima— *Bachelor's Degree in Software Engineering*

February 2020 - August 2024

Technical Skills

Programming Languages: C#, JavaScript, Python, SQL, HTML5, CSS3.

Web & Frontend Technologies: JavaScript, jQuery, REST APIs, ASP.NET MVC, Blazor.

Databases: SQL Server, MySQL.

Architecture & Patterns: Clean Architecture, Dependency Injection, MVVM, MVC.

Tools & Platforms: Git, GitLab, Visual Studio, Azure DevOps.

Certifications

Foundational C# Certification : Microsoft Learn (35-hour curriculum validating object-oriented programming, data structures, and core programming logic).

Languages

Spanish: Native.

English: B1+ (Actively expanding professional and conversational fluency).
